Seminar 2 from 11th (afternoon) to 14th of July 2024

Seminar 3 from 14th (afternoon) to 17th of July 2024

at the Hotel Ucliva, Waltensburg, Grisons

The respected and powerful Inca Master Don Agustin will come the third time to the Surselva with his son Santos for three seminars. Don Agustin grew up with the Q'eros in the high Andes of Peru and is familiar with the wisdom teachings and healing knowledge of the Inca tradition. This was transmitted over many generations from teacher to chosen student. More than 5000 years ago, the wisdom keepers began to develop a technique to heal diseases with energy, spirit, and light. They realized that everything is interconnected. They use this relationship between human beings and nature to interpret and heal causes of diseases.

In all three seminars, Don Agustin and Santos will share with us much of their knowledge from the Q'ero tradition and transmit to us some of their sacred rites called Karpays. In deep connection with their ancestors and with nature spirits, they will spontaneously choose a specific Karpay and transmit it to us individually in nature.

This year for each seminar a specific topic has been chosen. This allows Don Agustin to dive deeper into their wisdom teachings of one of their main healing tools.

Seminar 1: Despacho

A Despacho is like a mandala and contains many symbolic elements of flowers and seeds and is performed on various occasions in life, e.g. before and after birth, weddings, solstice, before and after death. Heart's desires, prayers, and wishes may be placed into this powerful ritual.

Seminar 2: Chumpi Mesa, Plejades and Ñustas

Chumpi stones support us to cleanse and balance our chakras. After this process, we will be more likely to be open to receive the high and soft energies of the seven Pleiades and of the seven Ñustas. The Ñustas are also called the princesses and relate to the Plejades. Don Agustin could many times

observe his grandmother transmitting the seven Ñusta Karpays. This seminar will contain energy transmissions in caves, at waterfalls, and under the night sky. It is only a start in the work with these subtle feminine energies.

Seminar 3: Soul Retrieval

In their tradition, it is believed that if you suffer from a trauma, you might lose a soul part. The trauma can happen in early life, in an accident, during a surgery, in a difficult life situation, etc. Q'ero shamans immediately call back the soul part to keep the soul safe and strong. We will learn about the journey of the soul, how to keep the soul stable in life, and techniques to call back a soul part also if the soul loss happened many years ago.

There are no prerequisites for one of these seminars. Each seminar can be visited separately. A mesa need not be owned. Of course, if you have already one, we will work with it and anchor new energies to become a more powerful personal altar on your healing path.

During the lunch and in the evening breaks, Don Agustin offers individual healing sessions. He can see our luminous energy field, perceive blockages, and support us to transform them to bring more harmony back into our lives. These sessions can be booked ahead of the seminars.

In each seminar, Don Agustin will offer a whole evening supervision for all who are already working with techniques from the Q'ero wisdom path. It is thought that practitioners may ask specific questions from their work with clients. Everybody is invited to attend this evening.
